OUR LOCATION

FRAMINGHAM NURSERIES are located in Framingham, Mass.,—The Health Town—about halfway (21 miles) from Boston to Worcester, on the main line of the Boston and Albany division of the New York Central R. R. Also on the New Haven R. R. Good motor roads lead to Framingham from all directions. Visitors are cordially invited to inspect our nurseries on week-days. We are **POSITIVELY CLOSED TO BUSINESS ON SUNDAYS.**

THE PLANTING SEASON

The Spring Planting Season begins as soon as the frost is out of the ground (middle March to first of April) and continues until the new growth starts—late May or early June.

SHIPPING DIRECTIONS

We are admirably situated for prompt shipping in all directions by rail. Good motor roads enable us to ship by motor truck, within a radius of 75 miles, at a moderate charge, provided the order is large enough to make a truck-load.

Customers are requested to state explicitly the mode of conveyance by which they desire their orders forwarded.

When no route or method is specified we exercise our judgment. In no case do we assume any responsibility after goods have been shipped, except for our own mistakes.

When loss or injury occurs, by delay or mishandling on the part of the carriers, claim should at once be made on the TRANSPORTATION COMPANY by the consignee.

CONDITIONS OF SALE

1. The articles herein listed will be furnished according to the following schedule:

1 to 4 plants of the same kind and size will be priced at the each rate.

5 to 39 plants of the same kind and size will be priced at the ten rate.

40 or more plants of the same kind and size will be priced at the hundred rate when a hundred rate is listed.

250 or more plants of the same kind and size will be priced at the thousand rate when a thousand rate is listed.

FROM THIS SCHEDULE WE WILL NOT VARY because of the expense entailed in assembling an order made up of small lots of a kind.

2. Specimens personally selected by the purchaser or his representative (or specially selected by us at the request of the purchaser) will be priced according to their individual values.

3. The prices annexed are for the stock F.O.B. our nurseries. They do not include the packing boxes or bales. We charge for the actual cost of the boxes or the material used in bailing, except on orders paid in full in advance.

TERMS OF PAYMENT

Our terms are cash, except by special agreement. Unknown correspondents who wish to open an account will please give us the names of three parties with whom they have credit relations and allow us sufficient time to investigate same. We will ship C.O.D. when desired, with collection charges added to the bill, provided 20 per cent of the amount of the order accompanies the order as a guarantee. All accounts unpaid after the due date will be subject to sight draft without further notice.

HEALTHY PLANTS

We spend a great deal of time, money and effort every year in the eradication of insect pests and plant diseases. In addition, representatives of the Massachusetts Department of Agriculture each year carefully inspect our nurseries, eradicate any pests and destroy any diseased plants they may find. Their **CERTIFICATE OF INSPECTION**, which accompanies every shipment we make, is your assurance of receiving only healthy nursery stock.

OUR GUARANTEE

We guarantee the stock herein listed to be—

1. Grown with the greatest skill and science that our years of experience have brought us.
2. True to name.
3. Alive at time of shipment.
4. Healthy and free from disease.
5. Dug properly.
6. Packed so as to reach destination in good condition.

If goods are not as represented **ON ARRIVAL, NOTIFY US IMMEDIATELY**. Failure to do so voids this guarantee.

Any stock ordered from this list found untrue to name will be cheerfully replaced during the next planting season after its falsity becomes apparent.

Our responsibility ends when you accept the plants (except for untruthfulness to name). If you choose to neglect them we cannot be held responsible. Plants are perishable living organisms. Their success depends upon the care **YOU** give them. Treat them well.

EVERGREEN TREES

We grow our evergreens with the greatest care. Not only do we prune the tops for shape, but we also PRUNE the ROOTS, and TRANSPLANT the trees many times. This results in a mass of fibrous roots which is the deciding factor in the successful planting of evergreens. For this reason our evergreens should not be confused with quickly and cheaply grown, non-pruned and non-transplanted stock.

We also dig our evergreens with a ball of the earth in which they are grown, and wrap the ball securely in burlap. This we do WITHOUT ADDITIONAL CHARGE.

RHODODENDRONS

Our stock comprises the native varieties, Catawbiense and Maximum as well as the hardiest of the Catawbiense Hybrids. To this list we have recently added Rhododendron Carolinianum, a native sort of great hardiness and beauty, and Rhododendron catawbiense compacta, an interesting hardy, dwarf variety.

QUALITY NURSERY STOCK

Experience has proved that it is unprofitable to plant any but the best grade of Nursery Stock. The cost of transportation, the cost of planting and after care—whether paid in money or in physical effort—are too great to lay out on plants that will fail to fulfill their purpose and which will require that the work be done over in a short while.

At the most, the initial saving in buying poorly grown stock is small—in any case less than the cost of buying new plants and the cost of replanting.

Save yourself time, money and effort. Buy plants that have been grown by experts, on properly selected soil, in a rugged climate. Buy plants that have been properly pruned and trained to give immediate effect. Buy plants that have root systems sufficient to assure transplanting success—buy Framingham Nursery Stock.

DECIDUOUS FLOWERING AND ORNAMENTAL SHRUBS

Varieties marked "B&B" are always dug with Ball and Burlap at No Additional Cost.

WILSON'S CHINESE COTONEASTERS

Few recent additions to the horticulture of America have met with as much popularity as have the CHINESE COTONEASTERS introduced by Mr. E. H. ("Chinese") Wilson, Asst. Director of Arnold Arboretum, and famous horticultural explorer. These shrubs are all valuable for their pro-

fusion of flowers and fruits and some for their glossy, semi-persistent leaves. We take pleasure in offering the following species to those who appreciate new and valuable plants.

PLANT FANCIERS

A careful perusal of this price list will reveal a multitude of plants which will be found to be very beautiful and interesting. Some are new, others are rare, while still others which we have grown for many years are not well known to the general public. All of these sorts are grown with the greatest care and attention. We shall be glad to have you examine them at our nurseries.

BUY TIME

When you buy nursery stock in the larger sizes you are buying time. Buy big trees and get the benefit of them YOURSELF. The largest trees we list will transplant successfully, because they are grown with heavy root systems.
